2. Create a wireframe for any of the 5 pages from the Canvas app (Mobile Version only).

Login Page:

The wireframe depicts a mobile login interface for the University of New Haven. It features a solid blue background. At the top, the university's name is displayed in a white, serif, all-caps font. Below this, a white instruction text prompts the user to sign in with their university account. The login fields consist of two white rectangular boxes with rounded corners; the first is labeled 'Username' and the second is labeled 'Password' in a light gray font. A black rectangular button with rounded corners and the text 'Sign In' in white is positioned below the password field. At the bottom, a line of white text provides a link for password changes or login assistance, underlined.
